Winnipeg, Regina, Calgary and Vancouver

GUIDE *to* CLASSIFIED INDEX

☆ THE METHOD OF INDEXING the material on the succeeding pages is that by which the most important word in headings is generally placed first. The arrangement then proceeds in the proper alphabetical order. In the majority of cases it will be found that the noun or main name comes first, *i.e.*—Furniture, bedroom; Hardware, builders; Leather, boot and shoe upper, etc. This allows the grouping of all similar articles close together. In other cases, where the inversion seems unnatural, the headings have been listed as they run—air appliances; fire escapes, etc. If any difficulty is experienced in locating desired headings or articles, users of the book should try both forms of listing. This will enable the heading to be found if it appears in the book at all.

In all cases we have endeavored to use the names most commonly known. It is possible that we have listed some products and materials under names that differ from those that our subscribers use. Synonyms will therefore be useful to bear in mind.

Cross references have been supplied where two or more names are commonly used to describe the same article.

Street addresses of the firms listed in the classified section are provided where necessary in the alphabetical list of names (on green sheets) immediately preceding this Classified Section.

Attention is also called to the French Index of articles, which is placed immediately after the Produce Section (Part 4) on green paper. In limited editions a Spanish Index or a Portuguese Index appears instead of the French Index.

Firms before whose name a star appears have intimated that they are engaged or seriously interested in Export Trade.

We shall be glad to have the opportunity of giving additional information to any manufacturer or user of the *Canadian Trade Index*. No charge is made for this service.
